

FAQ# 27-05080302
Modified 05/08/03

Can I use JBoss 3.2 with Parallel Crystal 2.7.1/3.7.1?

Issue

The version of JacORB that is shipping with JBoss 3.2 has some compatibility issues with PCRE 2.7.1/3.7.1 and may not work correctly.

Solution

Parallel Crystal v2.7.1/3.7.1 will work with JBoss 3.2 and the most recent JacORB (v1.4.1) from the JacORB web site: www.jacorb.org

For detailed instructions on how to change the run-time ORB see our FAQ titled:
